

ABDERRAHMANE SALMI

5th-year Software Engineering Student

About Me

I am a 5th-year Computer Engineering student at the National School of Applied Sciences in Oujda (ENSAO). I am currently looking for an end-of-studies internship (PFE). My goal is to apply the technical and theoretical skills I've acquired throughout my academic journey.

Certifications

- **Oracle:** Java SE 17 Developer.
- **HackerRank:** Java (Basic) Certificate.
- **CISCO CCNA:** Introduction to Networks.
- **Coursera:** Figma.
- **Great Learning:** React.js | Java | Git.
- **AmigosCode:** Spring | Spring Boot.
- **Salesforce:** <https://www.salesforce.com/trailblazer/euob4qvsgdbfmp2t5v>

TECHNICAL SKILLS

- **Programming Languages:** Java | C# | JavaScript | PHP | TypeScript | SQL | HTML | CSS | XML.
- **Frameworks & Libraries:** React.js | Three.js | Next.js | node.js | express.js | Spring | Spring Boot | Symfony | ASP.NET | JEE | Bootstrap | TailwindCSS.
- **Databases:** MySQL | MongoDB | Oracle | PostgreSQL.
- **Modeling:** UML | Merise.
- **Collaboration & Agility:** Github | Gitlab | Git | Scrum | XP.
- **Project Management Tools:** Trello | Slack | Jira.
- **Software Architecture:** Monolithique | Microservices.
- **DevOps:** CI/CD | Docker | Github Actions | Kubernetes | Terraform | SonarQube.
- **Testing:** JUnit5 (unit testing).
- **IDEs:** Visual Studio | VS Code | IntelliJ IDEA | PhpStorm | Eclipse.
- **Other Tools:** RabbitMQ | Kafka | Redis | Postman.

LANGUAGE SKILLS

- **Arabic :** Native.
- **English :** Fluent.
- **French :** Fluent.

EXTRACURRICULAR ACTIVITIES

2024-2025

President of the "Génie Informatique" Club at ENSAO.

2023-2024

Member of the "Génie Informatique" Club at ENSAO.

2021-2025

Member of the "VeoLife" Club at ENSAO.

EDUCATION

2023 - present

National School of Applied Sciences | Oujda

Engineering Program: Software Engineering (Génie Informatique)

2021 - 2022

National School of Applied Sciences | Oujda

Preparatory Cycle (STPI)

2020-2021

High School Diploma in Physical Sciences | Lycée Salam | Oujda

With high honors

Professional Experience

PFA Internship – Medical Management System

Developer (4 Members)

SQLI Oujda – 01/06/2025 to 31/07/2025

As an intern at **SQLI Oujda**, I contributed to the development of a medical management platform used by company employees to schedule and track annual, Spontaneous, Hiring, Maternity, Work Accident... medical check-ups. The system supported three roles: Collaborator, HR, and Doctor, and was built with a focus on clean architecture and enterprise-level standards.

- Participated in **system design** using **Hexagonal Architecture**, **CQRS**, and **TDD**
- Developed features with **Symfony 7.3.1**, **Twig**, **Bootstrap**, **JavaScript**, and **MySQL**
- Integrated **LDAP** for **authentication and role-based access**
- Wrote **unit tests** using **PHPUnit**
- Ensured **code quality** with **PHPStan**, **CS Fixer**, and **SonarQube**
- Used **Mercure** for real-time communication
- Set up a full **pre-production environment** with **Docker** and **Ansible**
- Built **CI/CD pipelines** with **GitLab CE**
- **Collaborated via Git** and **GitLab** following team workflows

Tools : Php, Symfony, Symfony UX Components, Twig, Bootstrap, MySQL, PHPStan, LDAP, CS-Fixer, SonarQube, Ansible, Docker, Gitlab, Slack, Jira...

PROJETS

03/2025 – 06/2025

End-of-Studies Project (PFA): (3 membres)

Management of preschool partnerships within the academy: financial and pedagogical tracking

Development of a web solution and application to manage preschool partnerships within the Regional Academy for Education and Vocational Training of the Oriental region, with financial and pedagogical tracking of partner institutions. This system facilitates contract management, grant and budget tracking, as well as evaluation of the educational quality of preschools using a dashboard that gives real-time visibility of performance indicators. And implementing an Ai Agent to give reports and insights.

Tools: HTML, CSS, TailwindCSS, JavaScript, React JS, Next JS, Java, Spring Boot, Spring Data Jpa, Spring Security, SpringAi, PostgreSQL, Docker, Kubernetes, Github Actions.

03/ 2023 – 07/ 2023

TIMELUXE: E-COMMERCE Website for Watch Sales

- Built a full stack online watch sales platform.
- Vendors can add and manage their watch inventory via an interactive interface.
- Customers can browse collections, sign up, and purchase watches online.

Tools : React JS, Express JS, Node JS, MongoDB, TailwindCSS, Docker

09/2024 - 02/2025

Hotel Management and Reservation Platform

Built a hotel management platform to handle rooms, reservations, and customer data efficiently. Secured the system using Spring Security with role-based access. Gained solid full-stack experience with Spring Boot and React.

Tools: HTML, CSS, JS, TailwindCSS, React JS, Java, Spring Boot, MySQL, Docker
